NACQUALITY CONTROL LAB

The National Academy of Construction (NAC) has emerged as an apex body in training for development of all types of construction resources, technologies and methodologies for fast track completion of projects.

NAC has established QUALITY CONTROL LABORATORY at Hyderabad which is recognized by Government. NAC undertakes the following tests at competitive rates when compared to other Institutions/Laboratories.

- Testing of Building, Road and Bridge construction materials like coarse aggregates, Fine aggregates, all types of Bricks, Cement, Bitumen etc.,
- All tests on cement concrete including testing of cubes.
- Job mix formula for bituminous courses and mix design for cement concrete mixes.
- Testing of soils for Specific gravity, Gradation, free swell index, Proctors density, CBR, Liquid and Plastic Limits etc.,
