About the NAC

NAC was established on the joint initiative of construction industry (Builders Association of India) and State Government in the year 1998 as a "Society" and incorporated as "Public Charitable" institution. It is managed by a Governing board with the Hon'ble Chief Minister as Chairman and Hon'ble Minister for Roads and Building, the Chief Secretary of Telangana State as Vice Chairmen. The Board members include Principle Secretaries of Works Departments, eminent persons of construction industry, Academic, Research institution and Professional associates representing the construction industry.

Purpose & Objectives

The main purpose of this organization is to develop and build capacities of human resources to enhance quality and productivity of construction industry. NAC operations are in the area of skill development, skill upgradation and capacity of building of all types of human resources, exclusively for construction industry. NAC conducts trainings for unemployed youth, workers, tradesmen, construction engineers, contractors, managers, supervisors and technicians to develop skill and inculcate professionalism.

NAC & DFII reached understanding to jointly implement skill enhancement programs related to geotechnical investigation works.

We are pleased to organise the '5-Days Workshop on Geotechnical Investigation Laboratory Testing' at National Academy of Construction Hyderabad for geotechnical professionals across India.

During this program participants will be trained in the standard procedures, technical importance, and best practices for different lab tests along with demonstrations.

We invite you to participate in this workshop for deriving the benefits of the program.

This program is scheduled at National Academy of Construction, Hyderabad

Program Details:

The program will span for 5-days involving class room lectures, and extensive laboratory training & demonstration of important tests related to soil and rock testing, along with case studies.

The program will start with a pre-workshop assessment test to ascertain the competency of attendees, followed by 5 days of intensive workshop, which will end with a post-workshop assessment test. Attendees will get a participation certificate.

For detailed schedule and program information, visit: <https://nac.edu.in/>
