

Certification Program

Awareness on
**‘Laboratory
Management
System &
Internal
Auditing’**

**(As per ISO/IEC 17025:2017 &
NABL Requirements)**

23-26 July 2024

Introduction

Acceptance of validated test results is an important requirement in national / international business scenario. This can happen only when proper validation of the test results is done. This process of validation establishes confidence in customers regarding the products, more so when the testing and calibrating laboratories have been accredited by the recognized bodies.

As part of accreditation, a Laboratory's Quality Management System is thoroughly evaluated on a regular basis to ensure continued technical competence and compliance with the standard. To achieve this objective, laboratory accreditation based on ISO/IEC 17025:2017 - General Requirements for the Competence of Testing and Calibration Laboratories, is an accepted norm world over.

In India, NABL (National Accreditation Board for Testing and Calibration Laboratories) controls the laboratory accreditation based on ISO/IEC 17025:2017.

Objectives

- Understand the need for validation of test results.
- Enable to interpret ISO/IEC 17025:2017 requirements.
- Increase confidence in personnel performing these testing and calibrations in accordance with International Standards.
- Enable participants to develop system documentation as per the standard and implement the same effectively.
